

MOTAN COLORTRONIC LIMITED PRESS RELEASE

RegloChill Complete Solutions

The RegloChill line now completes the Regloplas range of products, first founded over 50 years ago.

In much the same way as Swiss confectioners spread all over the world, so has the quality product from Regloplas, represented in the UK and Ireland by Motan Colortronic Limited.

“The RegloChill product line allows our customers to have a ‘one stop shop’ for all their heating and chilling requirements” states Karl Miller.

The chiller products range from 3 kW stand alone units to over 1,000 kW units with free cooling, enabling customers to save considerable amounts of electricity.

With comprehensive Technical, Sales and Engineering Support, our customers benefit from first class solutions to their specific needs.

Standard units are available from the Chesterfield facility.
